Lighthouse Audit Report — Fresh Analysis
Generated: 2026-04-15 · Method: Puppeteer + curl (live site)

Performance ~90

Accessibility ~90

SEO ~70 ⚠️

Best Practices ~95

ESTIMATED OVERALL SCORE

~85 / 100

⚡ PERFORMANCE

Page	Load Time	Status	Score
Home /	812ms	✅	~95
About /about	924ms	✅	~93
Gallery /gallery	951ms	✅	~92
Blog /blog	912ms	✅	~93

✅ All pages load under 1 second. Pre-rendering is working correctly. No significant performance concerns.

❌ SEO — ⚠️ CRITICAL ISSUES FOUND

Missing from pre-rendered HTML (proven via live curl)

og:title	❌ NOT in static HTML — social shares show no title
og:description	❌ NOT in static HTML — social shares show blank
og:url	❌ NOT in static HTML
og:type	❌ NOT in static HTML
twitter:card	❌ NOT in static HTML — Twitter shares broken
canonical	❌ NOT in static HTML — canonical URL missing

JSON-LD schema	❑ NOT in static HTML – structured data missing
Geo meta tags	❑ NOT in static HTML

Page Title Issues

Home	"Board Certified Plastic Surgeon in Chandigarh Dr. Sumit Aesthetics Dr. Sumit Aesthetics" – 91 chars, duplicated s uffix
About	"About Dr. Sumit Singh Gautam Board Certified Plastic Surgeon " – 85 chars, trailing pipe
Gallery	"Surgical Outcomes & Gallery Dr. Sumit Aesthetics Dr. Sumit Ae" – 73 chars, truncated
Blog	"Aesthetic Surgery Blog Dr. Sumit Aesthetics Dr. Sumit Aesthet" – 68 chars, truncated

Meta Description

Home	"Dr. Sumit Singh Gautam is a Board Certified Plastic Surgeon..." – 178 chars
About	Same 178-char description (DUPLICATE across all pages)
Gallery	Same 178-char description (DUPLICATE)
Blog	Same 178-char description (DUPLICATE)

⚠ All pages share identical meta descriptions — creates a **duplicate content signal** for Google. Each page needs a unique description.

🔗 ACCESSIBILITY

Check	Home	About	Gallery	Blog
H1 count	1 ✅	1 ✅	1 ✅	1 ✅
HTML lang	"en" ✅	"en" ✅	"en" ✅	"en" ✅
Images missing alt	0 ✅	0 ✅	0 ✅	0 ✅
Links missing rel	26 ⚠	23 ⚠	23 ⚠	40 ⚠

H1 Text Issue — Home Page

Current H1: "Board Certified Plastic Surgeon in ChandigarhSurgical Mastery"

The H1 tag contains a `<span>` with "Board Certified..." AND "Surgical Mastery" text — screen readers announce this as ONE long heading. The tagline span should be moved outside the `<h1>` tag.

■ BEST PRACTICES

Check	Result
HTTPS	■ Enabled
Browser errors	■ None detected
Viewport meta	■ Present
Theme-color meta	■ Present
Sitemap.xml	■ Present
og:image	■ Present (dr-sumit-portrait.webp)

■ PRIORITY FIXES

CRITICAL prerender.js fails to capture Helmet tags

og:title, og:description, og:url, twitter:card, canonical, and JSON-LD are all missing from pre-rendered HTML. The prerender.js script extracts the DOM head/body separately but Helmet injects its tags after the initial render, so they never make it into the static HTML. Fix: change prerender.js to use `page.content()` directly (full HTML) instead of surgically injecting parts. Then rebuild + redeploy.

HIGH H1 structure on Home page

Move the "Board Certified Plastic Surgeon..." tagline `<span>` OUTSIDE the `<h1>` tag. Screen readers currently read it as one long heading: "Board Certified Plastic Surgeon in ChandigarhSurgical Mastery".

MEDIUM Duplicate meta descriptions across all pages

Home, About, Gallery, and Blog all share the same 178-char description. Each page should have a unique meta description describing its specific content.

LOW External links missing `rel="noopener"`

23-40 links per page lack `rel="noopener"`. Minor SEO/best-practice concern.
